

SAM

SUPPLY AID MACHINE

BREAKING NEWS: Comprehensive investigations revealed a new top secret machine, which will solve your power supply problems with very smart features. SAM, shortly for supply aid machine, is small but effective. It will revive your vintage units and supply your pedal of choice with more juice.

Just feed SAM with a standard 9V DC outlet (negative center pin) of your power supply unit or a standard power adapter and it will give you one power output with -9V DC and one with 18V DC. Each output delivers up to 100mA, enough to feed several pedals via a daisy chain. SAM helps you to increase the dynamics and the headroom of your favorite dirtbox by using the 18V DC output. We at KMA Audio Machines love old fuzz boxes and

BREAKING NEWS: Comprehensive investigations revealed a new top secret machine, which will solve your power supply problems with very smart features. SAM, shortly for supply aid machine, is small but effective. It will revive your vintage units and supply your pedal of choice with more juice.

Just feed SAM with a standard 9V DC outlet (negative center pin) of your power supply unit or a standard power adapter and it will give you one power output with -9V DC and one with 18V DC. Each output delivers up to 100mA, enough to feed several pedals via a daisy chain. SAM helps you to increase the dynamics and the headroom of your favorite dirtbox by using the 18V DC output. We at KMA Audio Machines love old fuzz boxes and

know about the -9V DC power supply problem. We felt obligated to solve that with our SAM and give you the possibility to put your vintage fuzzbox on your board without using an extra power adapter. It will avoid error sources and you can get rid of batteries!

Don't be scared to sacrifice one of your 9V DC outlet of your power supply. We added another 9V output which will link through the 9V input. As you can see, our SAM is an all-in-one solution to improve your power supply system on the fly. Small – Smart – SAM.
